**Subject:** Reportable Incident #13

Good Evening UC,

Recordable Injury #13 was reported after an Oil Spill Technician tripped on a large root on the Carpet Trail. The injured employee landed on his knee and required medical attention beyond first aid. After receiving an examination at the Goleta Valley Cottage Hospital a Physician reported the injury may have resulted in a torn meniscus. X-rays were taken, medication prescribed and crutches/knee immobilizers were provided to the injured employee.

Attached is an ICS213 General Message describing the incident. Immediately following the incident the Safety Officer drafted a Safety Message and the information was briefed out during the next safety/ops brief.

Respectfully,

Ryan Andersen

Planning Section Chjef
